STARTING POINTS AT NEC

ABORIGINAL ADULT BASIC EDUCATION

The NEC provides classes leading the BC Adult Graduation Diploma. Classes are offered at the fundamental, intermediate, advanced and provincial levels. Cultural components include First Nations Studies and Northwest Coast Button Blankets.

FUTURE PROGRAMS

Once the ABE program is completed NEC provides a college connection program which prepares students who have completed their Grade 12 graduation requirements, or are in the process of completing, to succeed at a college level. All courses emphasize study skill development and college level academic skills. Students choose College Connections because they want to increase their self-confidence and ensure they have the right academic foundations.

College Connections offers a supportive, Aboriginal, friendly environment where students can put those foundations in place, develop their potential and explore what education has to offer.
